Northern Border OFO Watch (Posted 11/08/18)  
Northern Border Pipeline is posting an OFO Watch for various locations on its system. (See CN ID# 17XX)

#### Details:

Northern Border OFO Watch (Posted 11/08/18)

Due to low inventory levels and cumulative operational imbalance issues, Northern Border Pipeline is posting an OFO Watch for the following locations:

Stateline (DRN# 1251297)  
Squaw Creek (DRN# 1113226)  
Rawson (DRN# 1399965)  
Hay Butte (DRN# 1367615)  
Watford City (DRN# 109973)  
Spring Creek (DRN #1251436)  
Kildeer (DRN # 1402285)  
Manning (DRN# 378214)  
Glen Ullin (DRN# 43726)

The issuance is per Northern Border Tariff Section 6.10.6 Interruption of Service.

The OFO Watch is effective immediately and extends through gas day November 13th, in order to allow the interconnecting parties to remediate the cumulative operational imbalance issue. If an interconnect operator is unable to remediate the issue within the given timeframe, Northern Border will, pursuant to Northern Border Tariff Section 6.10.6 Interruption of Service, issue an OFO requiring curtailment of interruptible services and/or forced balancing of nominations and actual flows at these interconnects.

Interconnecting parties should contact Gas Control with to arrange payback on OBA imbalances:  
Loren Charbonneau 832-320-5674

This posting will be updated as more information becomes available.

Please contact your Northern Border Nominations Representative with any questions regarding nominations or scheduling at (888) 750-6275.

Please contact System Operations with any questions regarding operations or facilities.
