### Area:

### Daily Message:

Northern Border OFO Watch (Posted 2/9/19)

New: Effective immediately, Northern Border Pipeline is issuing an OFO Watch for its Spring Creek location.

### Details:

Northern Border OFO Watch (Posted 2/9/19)

Effective immediately and until further notice, due to cumulative operational imbalance issues, Northern Border Pipeline is issuing an OFO Watch for the following location:

Spring Creek (DRN #1251436)

The issuance is per Northern Border Tariff Section 6.10.6 Interruption of Service.

The OFO Watch is in effect through gas day February 15th, in order to allow the interconnecting party to remediate the cumulative operational imbalance issue. If an interconnect operator is unable to remediate the issue within the given timeframe, Northern Border will, pursuant to Northern Border Tariff Section 6.10.6 Interruption of Service, issue an OFO requiring curtailment of interruptible services and/or forced balancing of nominations and actual flows at these interconnects.

This posting will be updated as more information becomes available.

Please contact your Northern Border Nominations Representative with any questions regarding nominations or scheduling at (888) 750-6275.

Please contact System Operations with any questions regarding operations or facilities.
