Statement of the Nature, Reasons and Basis for Filing

Northern Border is submitting this filing to effectuate the annual adjustment to Northern Border's Compressor Usage Surcharge in accordance with Section 6.44 of the GT&C of its Tariff. The surcharge is designed to track the recovery of the actual costs, incurred during the twelve months ending February of each year, related to both electricity usage at Northern Border's electric compressors and compressor fuel use taxes imposed on the consumption of natural gas powered stations along Northern Border's pipeline system.

As set forth in the supporting workpaper included in Appendix C to this filing, Northern Border is proposing a revised Compressor Usage Surcharge of \$0.0014 per 100 dekatherm-miles, a decrease of \$0.0005 from the current Compressor Usage Surcharge of \$0.0019 per 100 dekatherm-miles.

Motion to Place Tariff into Effect

Northern Border respectfully requests that proposed tariff Section 4.7, if approved without addition, modification, or deletion, be placed into effect on May 1, 2013. Apart from the foregoing, Northern Border reserves its right under 154.7(a) to file a motion to place proposed tariff Section 4.7 into effect at the end of any suspension period ordered by the Commission.
